Feedback meeting for parents: Saturday, October 22, 2016, 10 a.m. to 12 p.m. (noon)

This option is offered as an alternative to the full preparation program described in this document. This abridged version takes place over two half-days. The Saturday session covers strategies on how to answer questions and shows the students the various challenges often faced in this type of exam.

The second half-day session is entirely devoted to the practice exam itself.

Finally, the feedback meeting allows the teacher to give general recommendations to the parents. At this session, an evaluation report of their child's performance on the practice French and Math exams will be given to the parents. This report will show the student's ranking in each evaluation (this being the most important part of an admission exam) and will also explain the student's strengths and weaknesses in detail.

For those who are interested, the students' exams will be available for consultation during this meeting and, after that, during review sessions scheduled for this purpose.

Please note that registration for this weekend preparation also includes a copy of the admission exams preparation review guide, elaborated by S.O.S. Studies and used in the full preparation program.
